ent Learning Outcomes

am Name: Inclusive Childhood Education 1-6

- Teacher candidates identify and apply knowledge of individual differences to provide meaningful, challenging, and developmentally appropriate learning experiences for all students.
- Teacher candidates conceptualize and create safe, inclusive, culturally responsible learning environments in order to support student learning and development.
- Teacher candidates understand and use content knowledge to provide all learners access to and support progress within the general education curriculum.
- Teacher candidates understand and use multiple methods of assessment and data sources in making educational decisions.
- Teacher candidates recognize, select and implement a repertoire of evidence-based instructional strategies to advance learning for all students.
- Teacher candidates understand and draw upon foundational knowledge of the social and cultural context of education and ethical principles to inform their practice.
- Teacher candidates understand the principles of effective collaboration with a variety of stakeholders in culturally responsive ways to address the needs of all students.

experiences.

velopment.

1.

their practice and advance the profession.

of learners across a range of educational experiences.
