

Student Learning Outcomes

Program Name: Teaching Students with

Disabilities 1-6

Department  
ts  
determine  
the number  
of major  
learning

- SL01
- Teacher candidates identify and apply knowledge of individual differences to provide meaningful, challenging, and developmentally appropriate learning experiences for students in grades 1-6.
- SL02
- Teacher candidates conceptualize and create and safe, inclusive, culturally responsible learning environments in order to support student learning and development in grades 1-6.
- SL03
- Teacher candidates understand and use content knowledge to provide all learners access to and support progress within the general education curriculum in grades 1-6.
- SL04
- Teacher candidates understand and use multiple methods of assessment and data sources in making educational decisions for students in grades 1-6.
- SL05
- Teacher candidates research and evaluate current issues, interventions, and practices in order to support inclusive teaching and learning, as well as implement a repertoire of evidence-based instructional strategies for all students in grades 1-6.
- SL06
- Teacher candidates interrogate the social and cultural context of education to articulate the ethical principles that guide their practice and advance the profession for students in grades 1-6.
- SL07
- Teacher candidates effectively collaborate with a variety of stakeholders in culturally responsive ways to address the needs of learners across a range of educational experiences.
