

Student Outcome BS Community Health (CHEA)	Assessment Opportunity	Assessment Timeline
1. Assess a community's health needs to determine priority areas amenable to intervention.	HLH 494 Project	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation Form Section 3a	Assessed each semester, discussed at department level once a year
	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
2. Utilize models, theories, and frameworks to assess, develop, or plan community health interventions.	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
	HLH 499 Evaluation Form Section 3f	Assessed each semester, discussed at department level once a year
<ul style="list-style-type: none"> Utilizes models/theories/frameworks to assess community health interventions 	HLH 494 Project	Assessed each semester, discussed at department level once a year
<ul style="list-style-type: none"> Utilizes models/theories/frameworks to develop/plan community health interventions 	HLH 493 PM/SM Project	Assessed each semester, discussed at department level once a year

	HLH 493 Methods Presentation	Assessed each semester, discussed at department level once a year
	HLH 380 Project	Assessed each semester, discussed at department level once a year
3. Analyze the impact and role of public health systems and the environment in the design and planning of community health interventions.	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Employer Key Informant Interviews	Assessed every three years
<ul style="list-style-type: none"> Analyze impact/role of public health systems in the design/planning of community health interventions 	HLH 390 Project	Assessed each semester, discussed at department level once a year
	HLH 494 Project	Assessed each semester, discussed at department level once a year
<ul style="list-style-type: none"> Analyze impact/role of environment in the design/planning of community health interventions 	HLH 499 Evaluation form section 3g	Assessed each semester, discussed at department level once a year
	HLH 494 Project Student Survey	Assessed each semester, discussed at department level once a year
4. Analyze a health issue using an ecological framework to identify opportunities for intervention.	HLH 380 Project	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation form section 3i	Assessed each semester, discussed at department level once a year
	HLH 494 Project	Assessed each semester, discussed at department level once a year
	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Employer Key Informant Interviews	Assessed every three years
5. Plan an evidence-based program to address a community's health needs and improve quality of life.	HLH 493 Methods Presentation	Assessed each semester, discussed at department level once a year

	HLH 499 Evaluation form section 3j	Assessed each semester, discussed at department level once a year
	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
6. Utilize valid sources of secondary data.	HLH 380 Project	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation form section 1e	Assessed each semester, discussed at department level once a year
	HLH 494 Project	Assessed each semester, discussed at department level once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
7. Collect, analyze, and interpret primary data needed to address a research question, to evaluate the effectiveness of a program/service, or to assess the health needs of a community.		
<ul style="list-style-type: none"> Collect primary data needed to address a research question, to evaluate the effectiveness of a program/service, or to assess the health needs of a community. 	HLH 499 Evaluation Form Section 3k	Assessed each semester, discussed at department level once a year
	HLH 391 Survey Research Project	Assessed each semester, discussed at department level once a year

	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
<ul style="list-style-type: none"> Analyze primary data needed to address a research question, to evaluate the effectiveness of a program/service, or to assess the health needs of a community. 	HLH 499 Evaluation Form Section 3k	Assessed each semester, discussed at department level once a year
	HLH 391 Survey Research Project	Assessed each semester, discussed at department level once a year
	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
<ul style="list-style-type: none"> Interpret primary data needed to address a research question, to evaluate the effectiveness of a program/service, or to assess the health needs of a community. 	HLH 390 Project	Assessed each semester, discussed at department level once a year
	HLH 391 Survey Research Project	Assessed each semester, discussed at department level once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
8. Use the research literature to identify evidence based practices for public health interventions.	HLH 390 Project	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation Form Section 3h	Assessed each semester, discussed at department level once a year
	HLH 494 Project	Assessed each semester, discussed at department level once a year

	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Employer Key Informant Interviews	Assessed every three years
9. Plan, implement, and evaluate a health intervention to promote health at the individual, community, or policy level.	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
<ul style="list-style-type: none"> Plan a health intervention to promote health at the individual community, or policy level. 	493 Methods Presentation	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation Form Section 3c	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation Form Section 3j	Assessed each semester, discussed at department level once a year
	HLH 499 Weekly logs	Assessed each semester, discussed at department level once a year
	HLH 499 Project Report	Assessed each semester, discussed at department level once a year
<ul style="list-style-type: none"> Implement a health intervention to promote health at the individual community, or policy level 	HLH 499 Evaluation Form Section 3d	Assessed each semester, discussed at department level once a year
	HLH 499 Weekly logs	Assessed each semester, discussed at department level once a year
	HLH 499 Project Report	Assessed each semester, discussed at department level once a year
	HLH 494 Project	Assessed each semester, discussed at department level once a year

<ul style="list-style-type: none"> Evaluate a health intervention to promote health at the individual community, or policy level 	HLH 499 Evaluation Form Section 3e	Assessed each semester, discussed at department level once a year
	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
10. Collaborate with other community health professionals, stakeholders, and/or participants to address a community's needs.	HLH 203 SLP	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation Form Section 3l	Assessed each semester, discussed at department level once a year
	Student Survey	Assessed each semester, discussed at department level once a year
	Alumni Survey	Assessed once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
11. Effectively communicate community health information in oral and written forms through a variety of sources and channels.	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
<ul style="list-style-type: none"> Effectively communicate community health information in oral forms. 	HLH 203 CHIA	Assessed each semester, discussed at department level once a year
	HLH 493 PM/SM Project	Assessed each semester, discussed at department level once a year
	HLH 390 Project Report	Assessed each semester, discussed at department level once a year

	HLH 499 Evaluation Form Section 2b	Assessed each semester, discussed at department level once a year
<ul style="list-style-type: none"> Effectively communicate community health information in written forms 	HLH 493 PM/SM Project	Assessed each semester, discussed at department level once a year
	HLH 499 Evaluation Form Section 2c	Assessed each semester, discussed at department level once a year
	HLH 494 Project	Assessed each semester, discussed at department level once a year
12. Apply ethical principles when working with organizations, communities, and individuals.	HLH 499 Evaluation Form Section 4h	Assessed each semester, discussed at department level once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
13. Demonstrate cultural competence when working with diverse populations.	HLH 499 Evaluation Form Section 4g	Assessed each semester, discussed at department level once a year
	Fieldwork Supervisor Focus Group	Assessed every three years
	Employer Key Informant Interviews	Assessed every three years
14. Demonstrate the dispositions needed to be an effective public health professional.	HLH 499 Evaluation Form Section 4i	Assessed each semester, discussed at department level once a year
	Fieldwork Supervisor Focus Group	Assessed every three years

	Employer Key Informant Interviews	Assessed every three years
15. Articulate a plan for achieving a career of their choice in public health.	HLH 221 Portfolio	Assessed each semester, discussed at department level once a year
	HLH 499 Professional Development Reflections	Assessed each semester, discussed at department level once a year
