ACE Summer Programs 2018

It is that time to think about your summer plans. What will you do to move forward with your goals? Are your sights set on college? Earning better grades? Learning about college and careers?

ACE Summer Programs give you an opportunity to take advantage of our educational offerings during a time with less homework and fewer extra-curricular activities. There are many benefits to participating in summer learning experiences:

- Prevent loss of acquired skills and knowledge
- Improve achievement in the coming school year
- Build student confidence
- Students benefit from interaction with students from other schools

Included in this flyer are the workshops ACE will offer for this summer. Please take a moment to look over the descriptions and dates to make your selections. All of the events offered are in the "required" category for ACE activities. This does not mean they are required for all ACE students, it simply means that students who participate will be earning credits in this category to become an ACE Scholar as well as working to be eligible for the Outstanding Senior Award.

Programs will fill up quickly so please register early. We use a waitlist when programs fill up. If a space opens up we will notify students as soon as the opening occurs.

Students who sign up for a 2-day program need to be available for both days.

Lunch is provided for full day programs but will not be available for the 1/2 day programs.

Please keep the descriptions, dates and locations for future reference.

Cancelling: If you must cancel your registration please do so ASAP so we can call someone on the waitlist to let them know about the opening.

NEW this year: ACE Medical Form - students will need to have this complete on the first day of the first program they attend this summer. The form is included in this flyer.

Workshop Descriptions

SAT/ACT Prep: (July 18) Elishia Hoatland & Ashley Houseknecht

Students will have an opportunity to take a predictor test to determine which test is best for them, either the SAT or the ACT. The second session will consist of specific ways to be a better test taker as well as information geared toward the individual's strengths and weaknesses on their chosen exam.

For students entering grades 11, 12

Location: SUNY Cortland

Cornish Hall Computer lab

1:00pm-5:00pm

Limit 30 participants

Study Skills: (July 11 & 12) Sherry & Brian Tasselmyer

Student will engage in a variety of enjoyable activities to enhance their study skills and learning success. Topics include: Self-awareness, learning styles, time management, ways to organize ideas/notes, test taking strategies and reading comprehension.

For students entering grades 9, 10, 11

Location: Tompkins Cortland College

Main building, Spole Conference Room

9:00am-3:00 pm both days

Limit 30 participants

Writing Process: (August 14 & 15) Bill & Sandie Lee

Students will develop and enhance their writing skills through a variety of interesting activities. Utilizing computers, they will also produce a published collection of writings. Students will be expected to write daily and share their work. Some typing is required.

For students entering grades 9,10, 11

Location: SUNY Cortland

Moffett Hall Rm 2125

9:00am-3:00pm both days

Limit 30 participants

Application Jumpstart: (August 16th) Admissions Staff and Bill Lee

Seniors, get a jump start on your college application. Work directly with admissions staff to not only stat your common application, but to learn about how to nail your college essay.

For students entering grade 12

Location: Ithaca College

10:00am-12:30pm

School of Business, Rm 204

Limit 35 participants

College Comparison: (August 30) Admission Staff

Parents and students will have the opportunity to tour two colleges in one day, use campus transportation and eat in a dining hall. The activities will encourage participants to look at college characteristics, majors offered and program requirements to understand the finer points of comparing colleges. Emphasis will be placed on learning how to look at college differences in order to grow or narrow your college list.

For parents and students entering grades 10, 11, 12

Location: SUNY Cortland

Miller Building

9:00am-3:00pm

Limit 40 participants

Registration Form ACE Summer Programs 2018
