STUDENT LEARNING OUTCOMES

BFA in Art Studio

Students graduating with a major in Art Studio are able to

• demonstrate understanding of the elements and principles of art and design in 2-D, 3-D media and digital environments
• differentiate between various artmaking practices and make workable connections between concept and media
• demonstrate the ability to think, reflect and manage time and resources as related to embodied studio art practice
• develop significant engagement with professional organizations and activities resulting in increased familiarity with professional practices, contemporary issues, and technological developments in area of emphasis
• demonstrate advanced command of materials and production methods in one or more media
• demonstrate visual and written/verbal skills applicable to presentation of work
• demonstrate a personalized visual vocabulary that expresses knowledge, awareness and dialog with historical and contemporary influences within arts, humanities, sciences and technology
• demonstrate comprehension of global perspectives in visual culture
