Wellness Floor
Living Agreement

The residents of the wellness have selected this form of housing in order to live with residents who have made a similar commitment to a lifestyle free from the influences of alcohol and all illegal or illicit drug use. As a resident, I hereby agree to make a positive personal commitment to maintain this community expectation. Evidence of this commitment shall be through managing my own behavior and the behavior of my guests as it relates to substance abuse on and off campus.

I agree to adhere to the following expectations:

- If I am under the age of 21, I will refrain from the use of any alcohol and drugs. This restriction applies to all activities both on and off campus, throughout the entire time that I reside on the wellness floor.
- I understand that all guests and visitors that I may have will also be requested to refrain from the use of alcohol and drugs while they are here.
- I understand that residents who violate these guidelines can be required to move to another type of housing option on campus, as soon as an opening is available, regardless of any required RHD meeting or student conduct disciplinary conference. In a case where there is a lack of housing options, the basic expectation is that this agreement is still in effect until I can move off of the floor. I will not be allowed to move back onto the wellness floor until one year from the date of the violation or until the end of my probationary period that is given by the Student Conduct, whichever is longer. If a move is not required, additional sanctions can be applied.
- If I am above the age of 21, I may consume alcohol responsibly within my own room or off campus. The following guidelines for the responsible consumption of alcohol apply: 1) Abide by all college policies related to alcohol use. (See the Code of Student Conduct) 2) Must refrain from disorderly conduct associated with the excessive use of alcohol that disrupts the floor or building community or has the potential to impede the learning/living environment within the hall.

These minimum expectations are created to assure everyone’s participation in a positive living environment that provides a safe, clean, educational, and supportive floor community.

In order to support building a wellness community, I understand that if I am aware of someone else’s behavior that is inconsistent with these expectations or if my behavior is inconsistent with these expectations, that I should inform a staff member or confront the individual resident. Enforcement of our wellness agreement is a community effort.

I have read this agreement and understand the expectations of living on the wellness floor.
