Adding Video from Library Catalog eLearning Blackboard Learn 9.1 for Faculty

Login to myRedDragon and click on the Library tab to search for your video. Go the classic catalog channel and type in the name of the video you wish to use. Enter the title. Then click the dropdown menu and choose “Title”. Click on Search.

Find the video you want in the results list. To view the video, click on Online Access. This opens the video in a pop-up window. You MUST remain logged in to myRedDragon in your browser in order to access the video.

In the video window, highlight the hyper link, and then right click/copy OR CMND-C.
Adding Video from Library Catalog eLearning Blackboard Learn 9.1 for Faculty

You will now go to your eLearning course by clicking on the Academics tab and then on My eLearning Courses. Click on the course you want to add the video to:

![My Courses](image1)

In a Content area click on Build Content and then on URL:

![Build Content](image2)

Name the link and paste the URL:

![URL Information](image3)

Adding Video from Library Catalog eLearning Blackboard Learn 9.1 for Faculty

Click on Submit:

You will receive confirmation at the top of the screen that the URL has been added:

You will see the video link added to the bottom of your content area.

If you click on the link you will be brought to the Video page. This page holds the catalog description and the video itself. The video can be made to show full screen if needed.
