

Mandatory Professional Licensure Disclosure
SUNY Cortland
Program: Therapeutic Recreation

Per U.S. Federal Regulations, §668.43 (2019 Rule), and in compliance with the State Authorization Reciprocity Agreements (SARA) Manual version 19.2, SUNY Cortland provides the following disclosure related to the educational requirements for professional licensure and certification.

New York State prides itself in the high quality of its licensed and certified professionals. For the protection of its citizens, each license and certificate has requirements that individuals must meet in order to be licensed or certified in New York State. SUNY's academic programs leading to licensure or certification are carefully designed to meet and exceed these State requirements. Other states frequently have their own requirements, so if your goal is to practice in another state, this disclosure will help you check to see what that state requires.

SUNY Cortland cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards, and are fact-specific determinations

This disclosure does **not** provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does **not** account for changes in state law or regulation that may affect your application for licensure and occur after this disclosure has been made.

This disclosure is strictly limited to the SUNY Cortland's determination of its BS in Recreation with a Concentration in Therapeutic Recreation, MS in Recreation with a Therapeutic Recreation, and a CAS in Therapeutic Recreation. These programs are registered with New York State Education Department and, in conjunction with additional requirements including passing the national certification exam (NCTRC), lead to certification as defined by the [National Council for Therapeutic Recreation](#).

SUNY Cortland has made no determination that the curriculum is insufficient to meet the licensure and certification requirements for practice in other states or territories. Enrolled students and prospective students are strongly encouraged to contact their state's licensure entity to review all licensure and certification requirements imposed by their state(s) of choice (<https://www2.ed.gov/about/contacts/state/index.html>).
