

SPRING AND FALL 2021

President's List

SUNY
Cortland

Spring and Fall 2021 President's List

The President's List is SUNY Cortland's highest academic honor. It acknowledges students enrolled in a minimum of 12 credit hours who achieve grades of A- or better in each of their courses. Of the full-time student body, 12.5% reached this level of excellence in Spring 2021, and 11.6% in Fall 2021.

Program

WELCOME	Dr. Erik J. Bitterbaum <i>President</i>
INTRODUCTION OF SPEAKER	Dr. Bitterbaum
KEYNOTE ADDRESS	"Meet the Challenge" Dr. Phil Buckenmeyer <i>Professor, Kinesiology</i>
AWARDEE RECOGNITION	Dr. Laura J. Panning Davies <i>Chief of Staff, President's Office</i>
CLOSING REMARKS	Dr. Bitterbaum

Monday, April 11, 2022 • Park Center Alumni Arena

Spring 2021

KEYNOTE SPEAKER

Dr. Phil Buckenmeyer

Dr. Phil Buckenmeyer earned his Ph.D. from the University of Maryland, College Park in exercise physiology with minor studies in biochemistry, biomechanics and statistics. He received an M.S. from Indiana State University in athletic training, subsequently leading to certification, and holds a B.S. from St. Bonaventure University in physical education.

Buckenmeyer served as chair of the Kinesiology Department here at SUNY Cortland for 12 years. During most of his tenure as chair, the department carried the largest student enrollment on campus, also gaining prominence as the 10th best sports medicine program in the country, according to CollegeChoice.net.

With a career in higher education spanning more than four decades, Buckenmeyer has instructed on topics including exercise physiology, strength and conditioning, cardiovascular fitness, exercise prescription, electrocardiography, social and psychological aspects of sport, prevention and care of athletic injuries, exercise and the environment, and biomechanics. He also has taught several activity courses such as swimming, bowling, golf, soccer, football and even water polo.

Buckenmeyer has been involved with several research projects resulting in more than 20 publications in peer-reviewed journals and book chapters, as well as 60 abstract publications. He also has given 45 presentations at international, national, regional and local conferences and received funding awards for more than 15 grants.

His research has covered a large range of topics, including the effects of exercise on various scenarios and populations, such as different skeletal muscle fiber types, drug therapies used with soldiers, children with cardiac abnormalities, blood pressure during pregnancy, and glucose levels of pregnant women with gestational diabetes. He also has studied the benefits of exercise on the health of an Asian population, as well as the effects of diet and exercise on overweight women, of 5-Hour Energy drink on simulated race car driving, and of caffeinated gum on motor function and exercise performance.

Buckenmeyer's service includes the care of student-athletes as a certified athletic trainer, fitness programming for several colleges and associated community adults, fitness supervision for children with heart conditions, direction of the HealthyNOW nutrition and exercise program for children from the Cortland community, and committee assignments at several college campuses.
