Policy advisor
Stock broker

PROGRAM HIGHLIGHTS

SUNY Cortland offers a unique curriculum that provides technical training in the areas of economics, business and finance in a strong liberal arts context. Students are encouraged to apply analytical techniques to real-world problems and develop valuable, marketable skills such as critical thinking, problem-solving, oral and written communication and quantitative reasoning.

GET INVOLVED

Students can supplement their learning by landing competitive internships, participating on the New York Federal Reserve Bank Challenge team, conducting research with professors, becoming IRS-certified tax preparers or joining the economics, entrepreneurship or mutual investment clubs.

GRADUATE SCHOOL CONNECTIONS

Recent graduates have pursued a master's degree or Ph.D. in economics or finance, or completed one of Cortland's 4+1 MBA partnerships with Clarkson University, Rochester Institute of Technology and Ithaca College.

By the numbers

4

Bloomberg Terminals on campus

→ These valuable, multi-monitor computers receive real-time financial data and stock market information.
