PRE-MEDICAL AND PRE-DENTAL

PATHWAYS

POTENTIAL MAJORS

Future medical professionals from SUNY Cortland often choose these majors:

BIOCHEMISTRY

BIOLOGY

BIOMEDICAL SCIENCES

CHEMISTRY

PSYCHOLOGY

→ *Regardless of their academic program, students are advised to complete the prerequisite courses needed to be competitive applicants for medical or dental school.*

Students also discover strong undergraduate majors that provide additional opportunities if career goals change.

PROGRAM HIGHLIGHTS

SUNY Cortland's advisement path helps ensure aspiring medical doctors and dentists take the necessary classes, follow the proper timeline and seize meaningful opportunities outside of the classroom.

FACULTY ADVISORY COMMITTEE

With representation from faculty in biological sciences, chemistry and psychology as well as Career Services, this committee advises students on coursework and research opportunities, performs mock interviews, prepares a committee letter of recommendation and sheds light on their own areas of research interest.

WHERE STUDENTS GO

Graduates have gone on to medical programs spanning campuses across New York state that include SUNY Upstate Medical University, University at Buffalo and New York University. Dental programs include Stony Brook University, Tufts University and Georgetown University.

By the numbers

100+ **students present each spring at Transformations: A Student Research and Creativity Conference**
