PROGRAM HIGHLIGHTS

Regardless of the major they choose, students interested in physical therapy or occupational therapy are able to earn the prerequisites needed to gain admission at the graduate level. Students also connect with knowledgeable faculty who advise in the process, attain guidance from Career Services and discover service-learning opportunities to meet their goals.

PURSUE EXTRA OPPORTUNITIES

Cortland's annual Sports Medicine Symposium brings in keynote speakers from various healthcare professions, including team doctors, strength and conditioning coaches and other clinician-related areas. Students also are encouraged to pursue undergraduate research projects to make their graduate school applications stand out.

GAIN EXPERT ADVICE

Career Services offers individual advising and conversations on key topics such as interview prep and worthwhile clinical experiences. Kinesiology Department faculty members also provide direction on appropriate clinical pathways.

By the numbers

#10

national ranking for students interested in pursuing a sports medicine career
