

Transfer Planning Sheet (SUNY Broome) Conservation Biology (CON), B.S.

The following SUNY Cortland courses are recommended by the department to complete prior to transfer. The transfer credit limit from a 2-year college is 64 credits. All classes are three (3) credits unless otherwise noted. [SUNY Transfer Path](#) courses are underlined and notated in blue. Transfer students who have completed SUNY General Education prior to attending SUNY Cortland will have met their General Education requirements at SUNY Cortland.

SUNY General Education/Cortland Degree Requirements (27 credits)

Courses I will complete at Broome CC:

- | | |
|---|--|
| <ul style="list-style-type: none"> ○ Communication 1 (GEC1)*

| <ul style="list-style-type: none"> ○ BIO 304 Microbiology ○ BIO 412 General Ecology <p>➤ Students who are not prepared for calculus should take pre-calculus as an elective.</p> <p>➤ Students are encouraged to avoid taking 100-level biology courses other than introductory biology, and to avoid taking human anatomy and physiology courses, as well as other biology courses designed for non-majors.</p> | <p>BIO 150</p> <p>BIO 212</p> |
|--|-------------------------------|

Total: 64

Conservation Biology

School of Arts and Sciences

The program requirements pertain to the Undergraduate Catalog and are intended as a guide for academic planning. Students currently on SUNY campuses should consult their academic advisor for additional choices in general education categories when any course is recommended.

- To view all required courses for the program and Cortland's General Education courses, see the most current undergraduate [Catalog](#).
- Use the [transfer equivalency tables](#) to choose equivalents at your transfer college.
- If you plan to transfer before you complete your associate's degree, you can still earn your degree via [Reverse Transfer](#).

About Conservation Biology

You'll find a strong emphasis on the biology of organisms and ecosystems along with the application of modern scientific approaches to environmental problems and their connections to human activities when you study conservation biology at SUNY Cortland. It also was one of the first programs of the kind offered at the undergraduate level.

Career Potential

- Biologist with state and federal agencies
- Conservation biologist with non-profit organization
- Ecologist
- Environmental analyst
- Naturalist at national and state parks
- Wildlife ecologist

Special Features

- Field facilities as part of the W.H. Parks Family Center for Environmental and Outdoor Education include:
 - Hoxie Gorge Nature Preserve located seven miles from the College, Antlers and Camp Huntington in the Adirondacks, and Brauer Field Station near Albany
- Faculty dedicated to providing quality education and research opportunities include:
- find yourself presenting your scientific findings at local and regional professional meetings.
- Study and work in our state-of-the-art classroom and research facility.

Applying to Cortland

- SUNY Cortland accepts the Common Application and the SUNY Online [application](#). Choose just one way to apply; both require a \$50 non-refundable application fee.
- If you apply to Cortland using the SUNY application, SUNY will waive the \$50 application fee for transfer students graduating with an associate degree from a SUNY or CUNY college, who apply directly to Cortland for baccalaureate programs.
- Fall applicants should apply by March 1. Spring applications should apply by November 1.
- After [applying](#), students must send transcripts from all colleges attended and a high school transcript.
