2020

SUNY CORTLAND
CAREER SERVICES

Introduction

Fall 2021

The class of 2020* represents a unique moment in history. This is the class most immediately and directly impacted by the labor market turmoil of the COVID-19 pandemic and subsequent global shutdown.

As the world, and the world of work came crashing to a halt in the spring of 2020, plans and hopes were upended. Our new graduates had many of their expectations dashed for a time as they, and all of us, faced one of the most challenging periods of world history most of us have ever known.

As our shutdown semester of Spring 2020 wrapped and we transitioned all of our services online, Career Services poured extra focus through the summer of 2020 into directly connecting with this graduating class to understand how the pandemic impacted career plans and how we could provide the support and resources to help these graduates redevelop their career strategies to think about their current situation and future prospects differently.

This is what Career Services does every day. So, while our strategies and approach needed to shift, we were prepared to serve our students and graduates through the transition. Career Services exists at the intersection of education and the world of work, and when the world of work shifts, we reposition with it.

The world changed in 2020, and it will change again in ways we have not yet anticipated. That is why a solid foundation is so critical. That is why education matters. That is why skill development is not only important and marketable, but transferable life, career, and professional skills are essential.

While the economy still struggles to recover and entire employment sectors have experienced mass upheaval, the path toward purposeful post graduate attainment may be a bit longer and windier than before for many of our graduates, but we are also already seeing our graduates recover from the pandemic employment market into first, second, or third “destinations” that are much more in alignment with personal and professional goals.

So, while first destinations are always an important starting point, we also know our SUNY Cortland graduates are much more than their first job after college. We are determined to help develop the skills and competencies to help all of our graduates find meaning and purpose in each stage of their lifelong career journey, and we are all in this together.

Thank you for all the big and small ways you help our students and alumni to find not only jobs or graduate programs, but also meaning and purpose. Your work matters for our students, our graduates, and for this moment in history.

Be well.

Michele Baran
Associate Director
SUNY Cortland Career Services

*Class of 2020 includes August 2019, December 2019, and May 2020 graduates. Outreach and data collection took place Summer 2020 through Spring 2021 with report completed in Fall 2021
