

Nance Wilson's instructions to participants:

I am honored that you have signed up for today's 11am workshop on *Building Online Collaborative Experiences*. In preparation for the workshop, I will be demonstrating a number of tools that can be used for collaboration. I will be screen sharing and showing you some tools for different pedagogical purposes. If you want to join in collaboratively during the demonstration you are welcome to join in. To facilitate your participation, I have copied the links below (not I did not consistently use hyperlinks as I wanted you to have the full URL in case of tech issues).

Here is the link to the whole group/main WebEx Meeting that Dakin set
